ACCREDITATION / ACCREDITED BY:

1. Delta School of Business & Technology (Delta Tech) is accredited by the Accrediting Council for Independent Colleges and Schools to award Diplomas and Associate in Occupational Studies Degrees.

2. The Accrediting Council for Independent Colleges and Schools is listed as a nationally recognized accrediting agency by the United States Department of Education. The Council for Higher Education Accreditation also recognizes its accreditation of degree-granting institutions.

3. The address and phone number is: Accrediting Council for Independent Colleges and Schools: 750 First Street, NE, Suite 980, Washington, DC 20002-4241, (202) 336-6780.

APPROVALS / APPROVED BY:

1. State of Louisiana Board of Regents

2. State of Louisiana Board of Regents under Chapter 35 Title 38 USC for the training of Veterans and dependents.

3. United States Department of Justice, Immigrations and Naturalization Service for Training Foreign Students.

MEMBERSHIPS

The institutional and administrative staff members of Delta School of Business and Technology are affiliated with the following business and professional organizations:

1. American Accounting Association
2. American Association of Medical Assistants
3. American Dental Association
4. American Institute of Professional Bookkeepers
5. Association of Information Technology Professionals
6. Association of Private Sector Colleges and Universities (APSCU)
7. Calcasieu Parish Notary Public
8. Chamber Southwest Louisiana
9. International Association of Administrative Professionals
10. Louisiana Association of Student Financial Aid Administrators
11. Louisiana Association of Private Colleges and Schools
12. Louisiana Dental Association
13. National Association of Student Financial Aid Administrators
14. Phi Beta Lambda
15. Southwest Association of Student Financial Aid Administrators
16. Better Business Bureau of Southwest Louisiana
HISTORY

Delta School of Business and Technology, a private co-educational school, was founded in 1970 and first housed at 502 Broad Street. In 1977, Delta Tech moved to its present location at 517 Broad Street, which is in the city's historical district. The school is listed in the city's register of historical structures.

Today the school offers basic business, medical and technical courses. Delta Tech was first accredited by the Accrediting Council for the Independent Colleges and Schools in 1976 and recognized by the Department of Education to participate in campus based student-aid programs in 1977.

PHILOSOPHY

Delta Tech's training involves the total person with emphasis on career skills and personal self-worth. Our career preparation provides individuals with quick access to the job market, and we strive to maintain a standard of excellence that promotes competence and success on the job. As a private institution, Delta Tech has the ability to make immediate responses to changes, which influence the needs of employers and students. Delta Tech recognizes a responsibility to the community it serves to provide educational programs, which meet the needs of the business sector. In following that responsibility, Delta Tech provides its students with a variety of learning experiences, business programs, and activities designed to promote the development of professional levels of conduct, attitude, values, and habits required for successful employment.

MISSION

The mission of Delta School of Business and Technology is to recruit, train, retain, graduate, and assist in placing students with the job skills that are in demand by employers and who have a work ethic that will promote success.

OWNERSHIP

Delta School of Business and Technology is wholly owned and operated by Delta School of Business, Lake Charles, Inc., a Louisiana Corporation owned by Gary J. Holt (100%). Delta School of Business, Lake Charles, Inc., assumes full responsibility for the educational agreement between the school and the student.

517 Broad Street | Lake Charles, LA 70601 | (337) 439-5765
ADMISSIONS POLICY

Delta Tech has an open door policy for admissions. Anyone who desires to attend Delta Tech will be considered for admissions on a nondiscriminatory basis. All applicants will be assigned an Admission Representative who will help the prospective student in developing an academic plan and then will assist with the application process.

ADMISSIONS PROCEDURE

Inquiries concerning admissions should be sent to:

Delta School of Business and Technology
517 Broad Street
Lake Charles, LA 70601-4334
(337) 439-5765
www.deltatech.edu

Upon receipt of such inquiries, the Department of Admissions will arrange for a personal interview. Upon completion of the interview and entrance examination, the formal application for admission may be submitted. The school will notify the applicant of his / her admission status.

ADMISSIONS REQUIREMENTS

The standard requirement for admissions is that the applicant be a high school graduate and be able to make a minimum score on an entrance exam applicable to the program being considered. Those who have not graduated from high school but who have satisfied graduation requirements through the General Education Development Test (GED) may also be considered for admission.

The school does not require that an applicant have previously taken business or technical subjects. However, if the student has had previous business or technical courses or experience, advanced standing or credit may be granted by either transfer credit or proficiency examinations.

Students entering all colleges, universities, vocational-technical schools and proprietary schools in Louisiana will be required to show proof of immunity against measles, mumps, rubella, and to have had a booster dose of tetanus-diphtheria (Td) vaccine within the past 10 years.

IDENTIFICATION BADGES

Delta Tech provides the initial identification and access badge to all new students and re-entries at no cost. Students are expected to wear the badge on their person at all times while on the Delta Tech campus. Identification badges must be unaltered and free of any other material, i.e., pin, stickers, etc. If badge is damaged or student changes course of study or name, student must bring old badge to the IT Department to have a new badge made without cost.
FOREIGN APPLICANTS

Transcripts from the student’s secondary schools must be submitted to the Director of Admissions. Whenever possible, an interview is required. If a proficiency test in English is needed, the student will be so advised.

TRANSFER OF CREDIT

Students transferring from other colleges or universities that are regionally or nationally accredited by an agency which is recognized by the US Department of Education are eligible for admission to Delta Tech with advanced standing. Credits for comparable courses in the student’s prospective curriculum in which passing grades (C or better) have been earned at previous institutions, may be accepted in transfer pending Dean of Academics approval. Job Readiness Resumes and Interviews is a required class for each program and is not accepted as transfer credit by prospective students or previous graduates returning to enroll in another program.

Students who want to transfer credits to Delta Tech from an accredited college or university may do so by presenting transcripts from each institution attended to the Registrar’s Office. Accepted transfer credits will be included in the cumulative hours of credits at Delta Tech and will also be calculated into your grade point average.

Students wishing to transfer credits earned at Delta Tech to another institution should check with that institution to understand their transfer of credit policy.

SCHOLARSHIPS

Delta Tech awards up to eight scholarships to high school graduates annually. One graduate from each parish (Beauregard, Allen, Jefferson Davis, Cameron, and Vernon) will be awarded one scholarship. Two graduates from Calcasieu Parish will be awarded scholarships. The final award will be reserved for interested students outside the six-parish area. If a parish does not have any applicants, Delta Tech reserves the right to award scholarships to other parish applicants.

Scholarship application packets must be received by May of each calendar year. As part of this application process, each applicant must meet with an Admissions Representative for a formal interview prior to the deadline. Interviews will be scheduled upon receipt of the scholarship application packet.

Scholarship finalists will be notified by May of each year, and will be scheduled for an interview with a panel of Delta Tech faculty and staff. Scholarship awards will be announced in late May. Scholarship recipients may choose to begin classes in July, August or September of the calendar year in which the scholarship is awarded. Scholarship recipients may choose any associate degree or diploma program offered by Delta Tech and receive a 50% tuition credit applied to chosen program. Scholarship recipients will be responsible for the remaining tuition balance after the 50% tuition credit has been applied. Scholarship recipients will also be responsible for the full cost of books, lab fees, and registration fees. Delta Tech Scholarship recipients are not eligible to receive any cash discounts from the institution. Delta Tech reserves the right to revoke
scholarship due to poor performance or disciplinary measures. Any student who withdraws from Delta Tech of their own accord or is withdrawn due to poor attendance or academic progress may lose his or her scholarship.

Scholarship applicants are required to submit an application packet assembled in a binder, consisting of the following information:

- High school transcript,
- Typed essay from applicant explaining how they would benefit from training and education received at Delta Tech,
- Three reference letters from high school instructors, staff, and/or other high school personnel,
- Two reference letters from anyone outside of the high school,
- If employed, one reference letter from employer that includes length of employment,
- One color photograph of applicant, and
- Any additional information the applicant would like considered.

**PROBATIONARY PERIOD**

At Delta Tech, we make every effort to ensure that new students have the needed information and support for a successful transition into the Institution and into your program. We affirm that, for all matters relating to your success in the classroom, your instructors should be your primary “go to” persons relating to absences, illness, homework, exams and grade issues. When you find yourself in need of additional assistance for any reason related to your coursework, consult your instructor immediately.

In addition to your instructors, our admissions representative(s) and the director of admissions serve as a second layer of support during your probationary period. As needs or concerns arise, the admissions team is available to assist you with any concern, and to direct you to the appropriate Delta Tech department if one of us is not able to resolve or address your concern directly. Please feel free to come in or call us at any time.

All new students are responsible for ensuring that they successfully meet institutional expectations during probation in the following key areas:

- Maintain solid **satisfactory attendance** throughout your probation period;
- Maintain solid **satisfactory academic progress** earning grades of C or better;
- Remain in **good financial standing satisfying all financial obligations** with the institution;
- Ensure there are no **outstanding admissions requirements** which were not satisfied at entry.

Delta Tech has an expectation that you will attend required meetings, or that, in rare cases, you will take the initiative to let your admissions representative know when you will be unable to attend and meet with us as soon as practical thereafter, and to make up any missed content. You will be held responsible for any information provided in these meetings or activities required of you as a result of these meetings.
Failure to meet any of these requirements may result in your being withdrawn from the Institution. If withdrawn, you will be required to return all books and any excess funds to the Institution to avoid financial recourse.

GENERAL INFORMATION

COLLEGE JURISDICTION

Delta Tech reserves the right to modify the offering of courses, programs of study, tuition, hours of classes, the calendar, and any other material listed in this catalog or herein attached or inserted. Changing conditions and requirements may dictate such changes at any time.

COMPLAINT/GRIEVANCE PROCEDURE

Students should try to resolve any and all complaints with the Director or Operations or Chief Executive Officer. Any student wishing to file a formal grievance should do so by submitting, in writing, a signed and dated statement describing the nature of the grievance. All written grievances submitted will be responded to in writing within 21 days of receipt by the institution.

Should a complaint/grievance remain unresolved, the complainant may file with:

1. State of Louisiana, Board of Regents
   Proprietary School Section
   P. O. Box 3677
   Baton Rouge, LA 70821-3677

2. Accrediting Council for Independent Colleges and Schools
   750 First Street, NE, Suite 980
   Washington, DC 20002-4241

LEAVE OF ABSENCE

In some cases, a student may arrange to leave school temporarily, with the intention of returning at a later date. A student may obtain a Leave Of Absence (LOA) form from the Education Department. The Dean of Academics must approve all requests for LOA. Leave of absence will be granted based upon the student's individual situation. Maternity, surgery, severe illness, death in the family, and family emergencies are all just causes for leaves of absence. The Dean of Academics counsels students at the time written request is submitted and informs students that taking a Leave of Absence will extend the student's program length. The School will not charge the student for the leave time; however, the allowed time for a Leave of Absence cannot exceed one hundred eighty (180) days per year. The year begins on the first date of student's granted leave, which is also the student's last date of school attendance. Weekends and holidays are included in the calculation of the leave period.

If the student fails to return from the leave of absence as specified by the Education Department, the student will be dropped from school. The withdrawal determination date that the school will use in calculating the withdrawal settlement will be the date the
student was scheduled to return from the leave of absence. The student’s charges will be
based on the actual time in school excluding the leave time.

CHANGE OF MAJOR

Students requesting a change of major at any time during his or her enrollment will be
required to sign an amended application and pay the required $95.00 change of major
fee. In doing so, students may incur a change in tuition that will be charged to the
student’s account. The Dean of Academics must approve all requests for change of
major and the student must hold a 2.0 or higher grade point average.

REGISTRATION

Registration will be held every six weeks. Schedules will be generated for a twelve week
period and disseminated from the Education Department every six weeks; generally one
week prior to midterms or finals.

ADD AND DROP PERIOD FOR CLASSES

Students can add or drop classes for a six or twelve week period only through the first
week of classes, regardless of how many class days fall within the start week.

STUDY TIME

The school believes that a student's main objective should be to further his or her
education. In order to successfully complete the class requirements, a student must
consider his or her obligation to studies and allow the necessary required amount of study
time.

GENERAL EDUCATION REQUIREMENTS

Occupational Associate Degree students must take a minimum of 16.8 credits of General
Education courses. These General Education Courses from which a student may choose
are located on pages 58-59. Those General Education courses that have no
prerequisites are rotated and are available to students as they are needed to fulfill the
general education requirements.

CREDITS

The school evaluates each subject in terms of quarter credit hours. One quarter credit
hour equals at a minimum, 10 classroom hours of lecture, 20 hours of laboratory, and/or
30 hours of Externship.

CLASS HOURS

Day classes are in session from 8:00 a.m. to 1:30 p.m., Monday through Thursday.
Evening classes are held on Monday through Thursday from 6:00 to 9:45 p.m. "Friday
Plus" is offered to students from 9:00 a.m. to 12:00 p.m. for makeup tests, individual and group tutoring, skill-building drills, and additional lab time on equipment.

**REPEATED COURSES**

Students are expected to complete and pass all required subjects. Any required subject failed must be repeated and passed before graduation. Any course in which a student receives a "D", "F" or "W" may be repeated at no additional charge.

**INCOMPLETES**

Grades of "Incomplete" can be assigned the letter grade of "I". Incompletes are only assigned under certain circumstances such as illness or hospitalization. It is up to the instructor to decide if an "I" will be assigned. The student is then given one week to complete any and all work lacking so that the instructor may assign a grade. If for some reason, the student fails to make up the work within five scheduled class days after the new class start, the "I" will turn to an "F". The instructor notifies the student that they have until Friday the 1st week to complete any work outstanding. That is until Friday, and then on Monday the instructor turns in a letter grade.

**NON-TRADITIONAL CREDIT**

Placement exams are offered in specified classes. Based on a student's score on these examinations, one or more classes may be waived. The student does not receive a grade for the class waived, but instead receives pre-test credit for the class.

**SMOKING POLICY**

Smoking is prohibited in all Delta Tech academic and business buildings (classrooms, laboratories, offices, lounges, restrooms, hallways, stairways, and common areas, meeting rooms) and in all areas where “No Smoking” signs are posted.

With the newly adopted Louisiana Smoke Free Air Act 815, persons choosing to smoke outside Delta Tech buildings and/or facilities shall avoid all main entrance and exit areas to prevent subjecting others to secondhand smoke. Designated smoking areas have been established in an effort to reduce litter, address health problems, and alleviate physical reactions by those susceptible to second-hand smoke. The two designated smoking areas are:

- East Side of Main Building, 1st Floor
- Between the Gayle Building and the Student Center

Additionally, any smoking shall occur at a reasonable distance outside any area where smoking is prohibited to insure that the smoke does not enter a facility through entrances, windows, and ventilation systems or by any other means. Any student who does not choose to comply with the above mentioned policy will be subject to Delta Tech disciplinary procedures.
TUITION AND FEES
(2013–2014 School Year)

Tuition prices vary based on method of payments and amount of down payments. Prices do not include books or registration fees ($95.00).

* Student has the option to change “method of payment” for second year funding.
**DISCOUNT**

A thirty percent discount will be applied if a student makes a full tuition cash payment, a twenty percent discount will be applied if a student makes a fifty percent tuition cash payment, and a ten percent discount will be applied if a student makes a ten percent cash payment. This can apply to the student's first or second academic year. (See Tuition and Fees on page 18.) Recipients of the Delta Tech Scholarship are not eligible to receive any cash discounts as referenced above.

**GRADE AND GRADE POINTS**

Students must maintain satisfactory academic progress at all times. Students are encouraged to consult their instructors regarding their grades and academic progress. The letter standing system and grade point values are as follows:

<table>
<thead>
<tr>

</tbody>
</table>

A student's cumulative grade-point average (GPA) is computed by dividing the total number of points earned by the total number of hours completed. A failing grade becomes part of the student's permanent record. Upon successful completion of the course, the previous grade is not computed in the student’s GPA; but the prior grade remains on the transcript.

Students must achieve a grade of C or better in all courses to successfully complete their program.

**SATISFACTORY ACADEMIC PROGRESS (SAP) POLICY**

In order to receive Title IV funding, students must be making satisfactory academic progress (SAP) in their program. The following policy explains how Delta School of Business & Technology (Delta Tech) will measure your academic progress according to U.S. Department of Education guidelines.

Delta Tech is required to evaluate all students' progress by the length of time it takes to complete their program of study, the rate of completion and by cumulative grade point average (GPA.)

**Length of Time:** A student must complete the entire program in no more than one and one-half the normal time frame or a degree cannot be awarded. If the student exceeds the maximum program length, a certificate of completion will not be awarded. All periods of enrollment are included in the evaluation of time.
<table>

</tr>
<tr>
<td>15 months</td>
<td>22.5 mo.</td>
<td></td>
</tr>
<tr>
<td>24 months</td>
<td>36 mo.</td>
<td></td>
</tr>
</tbody>
</table>

Time for an approved leave of absence will not be included in the calculation of a student's maximum program length.

**Rate (Pace) of Completion:** The total number of credits attempted is compared to the total number of credits earned. Students must successfully complete at least two thirds (66.7%) of the total number of credits attempted as evaluated at the end of each quarter. Example: Total Number of credits attempted is 12 and the total number of credits earned is 9.6.

\[
\frac{9.6 \text{ credits earned}}{12.0 \text{ credits attempted}} = 80\% \text{ rate of completion}
\]

**Cumulative Grade Point Average (GPA):** All students must maintain a cumulative GPA of 2.0 or higher. Please note that the treatment of grades for SAP is different than the college policy on academic standing. Please refer to the grade and grade points section in the institution’s catalog.

**EVALUATION PROCESS**

The Education Department will evaluate SAP at the end of each quarter. Written notification will be sent to any student placed on Financial Aid Warning, Financial Aid Probation, Financial Aid Termination and Financial Aid Reinstatement if making SAP status. In cases where the academic plan is required, the Education Department will monitor academic plans and provide a measurement for each student's pace based on the duration stated in each plan.

**Financial Aid Warning Status:** Defined as any student that is not making SAP.

- Students who do not have a cumulative 2.0 grade point average at the end of any quarter will be placed on Financial Aid Warning.
- Students who do not have a cumulative rate of completion of 66.7% or higher at the end of any quarter will be placed on Financial Aid Warning.
- The length of Financial Aid Warning is one quarter (12 weeks.)
- Student may receive aid for one quarter while on Financial Aid Warning.
- No appeal is necessary.

**Financial Aid Probation Status (Extended Enrollment*)**: Defined as any student not making SAP standards who has appealed and eligibility for aid has been reinstated. Aid may be received for one payment period only. A student must be able to meet SAP
standards by the completion of one quarter. If a student cannot mathematically achieve SAP standards in one payment period, an academic plan will be required.

**Academic Plan:** Defined as an action plan for a student following an appeal that when followed will allow the student to achieve SAP standards in a prescribed amount of time. Eligibility for aid has been reinstated and can be received as long as all conditions of the plan are met.

**Financial Aid Termination:** Defined as any student who is not making SAP standards and who either fails to appeal their status or has their SAP appeal denied. Aid cannot be received while on this status. This applies only to your financial aid eligibility, not to your academic standing.

**Reinstating Financial Aid Eligibility:** A student may reinstate their eligibility by achieving a 66.7% or higher overall completion rate and/or meet the required 2.0 grade point average, while on Financial Aid Warning; or through a granted SAP appeal.

**Reestablishing Financial Aid Eligibility:** A student may reestablish financial aid eligibility by enrolling and completing one or more quarters of at least half-time status without federal or state financial aid and achieve the applicable SAP standards.

**Appealing Termination of Financial Aid Eligibility:** Students who become ineligible for aid due to not meeting SAP standards at the end of a Financial Aid Warning status may appeal in writing to the Financial Aid Appeal Committee for Financial Aid Probation status. The student must explain the reason they were unable to make SAP and what has changed that will allow them to meet SAP at the end of the next quarter. Acceptable reasons for appeal include injury or illness, a death in the family or other unusual or unexpected circumstances.

Appeal forms may be obtained from the Education Department. Students must provide at least one professional reference letter or other document (such as a death certificate) supporting their changed circumstances. Such references may come from therapists, social workers, lawyers, clergy, counselors, doctors, etc. In the case of injury or illness, the student should submit copies of medical records to support an appeal. The Financial Aid Appeals Committee will review each appeal and respond to the student via US Mail within 7-10 business days.

**SAP DEFINITIONS AND INFORMATION**

**Successfully Completed grades:** Grades of A, B, C, D, and PC are considered successfully completed grades with regards to SAP.

**Withdrawals and Incompletes:** Grades of W (withdrawal) and I (Incomplete) will be considered (counted) in calculating credit hours attempted, but are not counted in calculating GPA. These grades are non-punitive. If the “I” is not changed to a grade by the second week after the start of the next period, the “I” will become an “F”. At that point, the only way to remove the F will be to repeat the course.

**Failures:** Failures are counted towards the determination of GPA and credit hours attempted. The failing grade becomes a permanent part of the student's record. When
the course is repeated, the failing grade is no longer calculated in the student’s GPA.

**Course Repeats:** If a student repeats a course, both courses will be counted as credit hours attempted. The higher of the two grades will be assigned as the permanent grade and that grade will be used in calculating the GPA.

**Pre-test Credits:** Grades of PC (pre-test credit) will be considered (counted) in the determination of satisfactory progress and in the determination of the number of credits earned. Grades of PC are not used in the calculation of GPA.

**Non Credit/Remedial Courses:** Delta Tech does not have non-credit or remedial courses.

**Transfer Credit.** Transfer credit is used in calculating credit hours earned and attempted as well as in the calculation of GPA.

**Student Seeking Additional Degree:** Any Delta Tech Graduate who wishes to gain an additional degree from Delta Tech will be required to meet Satisfactory Academic Progress standards as set forth by Delta Tech guidelines. In the event a student changes majors or seeks to earn an additional degree, Delta Tech will not include in the calculation of a student’s SAP standing the credits attempted and grades earned that do not count toward the student’s new major.

**Extended Enrollment:** If a student has been placed on Financial Aid Warning, did not improve following 12 weeks of Financial Aid Warning, and did not appeal the decision; they will lose their eligibility for Title IV Funds.

Students will be notified by the Education Department in writing that they are no longer eligible to receive Title IV funds. An account card will be pulled and an estimate of books and fees for the remainder of their program will be presented to the student. If the student has interest in continuing by securing their own financing they must provide evidence that they have the ability to pay for the remainder of their program to the Financial Aid Department within 14 days of notification.

Failure to respond to the notification within 14 days will result in withdrawal from the institution. In the case that a student meets the following criteria they may be exempt from the above policy:

- Balance of less than $500.00,
- Less than 6 months remaining in their program, and
- No Additional books to purchase

If a student meets these criteria they will be allowed to finish their program as scheduled. The student will be responsible to satisfy the remaining balance before being eligible to walk in the commencement ceremony or receive their transcripts or diploma.

In the case that a student will exceed 150% of the normal program length, an appeal letter may be submitted to the Dean of Academics for consideration of an extended enrollment status as long as all books and fees have already been charged to the student’s account.
ORIENTATION

Orientation is scheduled every six weeks. At that time students receive schedules, an explanation of school policies, and fill out required paperwork. Orientation is designed to enable the student to make an easy adjustment to the school environment and to acquaint the student with Delta Tech.

WITHDRAWALS

Students withdrawing from a class should consult with the class instructor and then the Education Department. Deadline for students being allowed to withdraw from classes will be the Friday of the first week of each six (6) week session, and the first week of each 12 week session for 12 week classes.

Students withdrawing from school should complete a withdrawal form at the Education Department. The school requests that a notice of cancellation or withdrawal be made in writing. The date of withdrawal shall be the last date of recorded attendance.

"UNOFFICIAL" WITHDRAWALS

If and/or when a student "unofficially" withdraws from school, the date of determination will be established as no later than 21 days after the last date of attendance.

RE-ENTRIES

Former students of Delta Tech who withdrew from school prior to completion will be considered for Re-entry into Delta Tech by contacting the Admissions Department. The student will be required to pay any outstanding financial obligations related to the student’s previous enrollment at Delta Tech and will be responsible for a $95.00 re-entry fee which must be paid prior to the start of classes. The student must have met the minimum requirements set forth by Delta Tech’s Satisfactory Academic Progress standards, depending upon what point the student was in his or her program at the time of his or her withdrawal from Delta Tech.

The student will also be charged any tuition differential that may have occurred while they were out of school. A consultation with the Financial Aid Department will also be required.

GRADUATION REQUIREMENTS

Students must complete the number of required credits with a 2.0 or above grade point average to be eligible for graduation. No student will be graduated with a grade point average below 2.0. A student cannot be awarded a degree or diploma if they have exceeded the maximum program length for their enrolled program. No degree, diploma or certificate will be awarded until all financial obligations are met.

A student is not permitted to participate in the commencement ceremony unless all financial obligations are met.
Completion and graduation rates are available upon request. Please contact the Education Department.

**STUDENT CONDUCT**

Delta Tech does not allow the use of alcohol or illegal drugs on school property or at school-sponsored functions. A student who is in possession of or under the influence of alcohol or illegal drugs will not be tolerated and may lead to dismissal from the institution.

Students are expected to maintain the standards of conduct that would be applicable to any work situation. Attendance, participation, hard work, and honesty are expected at all times. Any type of conduct unbecoming, which is included, but not limited to: harassment, intimidation, bullying, or any threat to bring physical harm to a student, faculty or staff member will not be tolerated and may lead to dismissal from the institution.

**DESCRIPTION OF FACILITIES**

Delta School of Business and Technology occupies four buildings over a four-acre area, Main Building (administration), Gayle Building (class rooms), the Annex (child care), and Student Center (student lounge), totaling approximately 34,000 square feet.

**DESCRIPTION OF EQUIPMENT**

Delta Tech currently utilizes five computer labs equipped with full Internet access and laser printers for all computer application classes. The Information Technology Department is equipped with two computer labs, one computer lab with full Internet access, printers, and a training area complete with workstations and five routers to simulate a wide area network environment, two computer labs for training with network operating systems, and one computer lab for building computers and troubleshooting hardware. The Medical Department is equipped with computer lab, Internet access and laser printer. The Accounting Department is equipped with computer lab, Internet access and laser printer.

All instructors are equipped with desktop computers to aid in class presentations and research. All instructors have access to TV’s and VCR’s as well as LED projectors for computerized presentations.

**FRIDAY PLUS**

Friday is an extra day as it functions in conjunction with the four-day week. Fridays are for one-on-one instruction, make-up work, and accelerated opportunities for all students. Faculty members will be available from 9 a.m. until 12 noon on Fridays to assist students in a more personalized way.
STUDENT SERVICES

GRADUATE SERVICES

Delta Tech offers lifetime employment assistance and makes a sincere effort toward the successful employment of its graduates in the field in which they have been trained.

Delta Tech's Graduate Service process is two-fold: (1) graduates receive assistance from the Graduate Services Department, and (2) he or she enrolls in a Job Readiness course where they are taught job-search skills. The job-search skills prepare them to participate in the job-search in conjunction with Delta Tech's Graduate Services Department and to participate in self-directed job search.

The Graduate Services of Delta Tech may include but is not limited to:

1. Assistance with resumes.
2. Assistance with applications.
3. Assistance on how to conduct a job search.
4. Contacts with employers to identify job openings.
5. Contacts with prospective employers after interviews.
6. Information concerning employment opportunities with local, state, and federal agencies.
7. Communication with other career centers to seek employment assistance in other areas of the United States.
8. Lifetime placement assistance is available.

Placement rates are available upon request. Please contact the Graduate Services Department.

HOUSING

Most students reside within commuting distance; the school does not maintain dormitory facilities.

ACADEMIC COUNSELING

Academic counseling is a continuing experience between the student and teacher, and students are counseled relating to Academic Probation. The Dean of Academics counsels with students often to help with school and personal problems. Delta Tech has a sincere interest in the personal welfare of each student and promotes an open-door policy of communication to provide assistance when needed.

RESOURCE CENTER

Delta Tech maintains a bookstore where students may purchase all required texts. All expenses for books and supplies are in addition to tuition cost. The library and library resources are available to students and faculty for research and references. Computers, periodicals, newspapers, Internet, and other reference materials are available in the
library, as well as, in individual classrooms and computer labs. Also standard reference volumes are available for student use. The library is accessible from: 7:30 a.m. – 8:00 p.m. Monday – Thursday and 8:00 a.m. – 1:00 p.m. on Fridays.

**TUTORING**

Tutoring is provided at no additional cost to all students who need assistance with his or her studies in order to achieve the desired results. Students in need of tutoring should consult with his or her instructor regarding the specific needs for tutoring.

**INTERNSHIP**

Internship students are placed in an actual job in the business community for part of his or her school day in his or her last quarter of training. The students are exposed to the many components of his or her chosen occupational field and have the opportunity for "hands-on" experience. Internship is considered a service to the student as well as curriculum requirement. As a result of Internship training, the student receives valuable experience and the opportunity to relate in an actual job situation. Often, Internship training is the beginning of many permanent jobs and job networking.

**NURSERY**

Delta Tech offers nursery facilities to Delta Tech students to enable them to pursue his or her career goals. Students enrolled at Delta Tech may use the nursery facilities while they are in school on a first-come, first-serve basis as spaces are available. Students who withdraw may lose their nursery privileges due to limited space.

The daycare policies listed below must be followed at all times to remain in good standing. Failure to comply with these policies can result in denial of daycare service.

- Space is available on a first come first serve basis,
- No request for a space can be guaranteed at time of request,
- Spaces are awarded after all admissions requirements have been satisfied, based on availability,
- Only children ages newborn up to 5 years of age are accepted,
- Student must be the biological parent or have legal custody of their child enrolled in daycare,
- Regular attendance is required by children who have been awarded a space in daycare,
- Students must be on campus at all times while their child is in daycare,
- Parents are required to spend their lunch break with their child and provide food for their lunch,
- There is a $20.00 fee per child per week, and
- All fees are to be paid weekly.

**STUDENT ORGANIZATIONS**

Delta Tech provides activities for students as a natural accompaniment to the study
programs to afford avenues of expression and development of leadership and lasting friendships. All students are encouraged to take advantage of the organizations that meet his or her needs and interests. Student organizations include Delta Tech Accounting Society, the Medical Office Assistant Society, ACEIT, and The Dental Society.

HONOR'S PROGRAM

DEAN’S LIST WITH DISTINCTION

The Dean's List with Distinction is composed of students earning a 4.0 grade point average and at least 12 credit hours (day) or 9 credit hours (night) per quarter or an overall 4.0 grade point average at the point of graduation.

DEAN'S LIST

Recognition is awarded to students who make a 3.50 to 3.99 grade point average and earn at least 12 credit hours (day) or 9 credit hours (night) per quarter or an overall grade point average of 3.50 to 3.99 at the point of graduation.

ATTENDANCE HONORS

An Attendance Award is presented to all students who have maintained perfect attendance during a term.

FINANCIAL ASSISTANCE INFORMATION

Delta Tech participates in the Federal Title IV Program which consists of the following types of aid: Federal Pell Grant, Federal SEOG, Federal Work Study, ACG, Federal Perkins Loans, and William D. Ford Federal Direct Loan Program. The primary purpose of financial aid is to provide monetary assistance to students who can benefit from post secondary education. It is believed that when these individuals have the opportunity to develop their capacity, they not only enhance themselves, but also contributes greatly to society.

The Financial Aid office at Delta Tech is dedicated to:

1. Helping to remove the financial barrier for those students who are unable to pay.
2. Easing the financial burden for those who are more able to pay, but are still in need of financial assistance.
3. Striving to realize the goal of equality of education opportunity.
4. Utilizing a consistent method for measuring the ability of families to pay for educational costs.
5. Providing all students the opportunity to apply for aid.

Students should submit the Federal Application for Federal Student Aid (FAFSA) annually to apply for financial aid. The FAFSA is a need analysis document published by the Department of Education. The information in this document is sent to the central processing center for an analysis of the expected family contribution (EFC). Federal aid
may only be awarded based on the official results of the FAFSA. The Financial Aid office will use this information to put together an aid package for the student that may include more than one type of financial aid. Delta Tech provides student financial assistance to eligible applicants and priority is given to students who have the greatest financial need.

Most awards are renewable if the financial need still exists, if academic and citizenship records are adequate, and if the student is making satisfactory progress. Delta Tech makes every effort to assist students who need financial assistance to complete his or her college program.

**FEDERAL PELL GRANT**

This is the largest Federal grant program. The amount of the grant depends on the family size and income. Estimates for grant amounts can be obtained in the Financial Aid Office. The U.S. Department of Education determines final notice of grant eligibility. To be eligible for the grant, a student must not have received a bachelor’s degree from another institution, and must submit a FAFSA for award year.

**FEDERAL SUPPLEMENTAL EDUCATION OPPORTUNITY GRANT (FSEOG)**

This is a grant program to help pay for education. It is available to Federal Pell Grant recipients who have exceptional financial need. Each year the institution receives a set amount of FSEOG authorization. When that amount is awarded in full, there are no more available funds for that year.

**ACADEMIC COMPETITIVENESS GRANT (ACG)**

This is a federal grant program offered to Pell-eligible students who have completed rigorous secondary school program of study. The U.S. Department of Education determines final notice of grant eligibility.

To be eligible for the grant, a student must submit a FAFSA for the award year, provide an official high school transcript verifying coursework, and not have received that academic year’s ACG grant at any other institution.

**FEDERAL DIRECT STAFFORD LOANS**

This is a low fixed interest rate loan from the William D. Ford Federal Direct Loan Program. Repayment begins six months after student withdraws or graduates from school. The borrower can have 5 to 25 years to repay the loans, depending on the amount.

**FEDERAL PERKINS LOAN (FORMERLY NDSL)**

Eligible students needing financial assistance may borrow up to $4,000 per year. Repayments are a fixed 5% interest rate beginning nine months after the student withdraws or graduates. The minimum monthly payment is $42 with up to ten years to
FEDERAL DIRECT PLUS LOANS

This loan enables a parent with an approved credit check to borrow for each child who is enrolled at least half time and is a dependent student. The PLUS loan is a fixed interest rate loan from the William D. Ford Direct Loan Program.

FEDERAL WORK STUDY (FWS)

The FWS program provides part-time jobs for students to earn money while in school. FWS students work and earn at least the federal minimum hourly wage up to award amount.

TOPS TECH AWARD

The TOPS Tech Award pays for tuition for skill or occupational training at any schools within the Louisiana Community and technical College System, Louisiana approved Proprietary and Cosmetology Schools or Louisiana Public Colleges and Universities that do not offer a baccalaureate degree. If a student pursues skill or occupational training at a college within the Louisiana Association of Independent Colleges and Universities or one within the Louisiana Public Colleges and Universities that offer baccalaureate degrees the award amount will be the average award paid to students attending public institutions that do not offer a baccalaureate degree.

FORMS / APPLICATION INFORMATION

Each student fills out the U.S. Department of Education's "Free Application for Federal Student Aid". This is a confidential financial statement of parental and student income. It is helpful to bring a copy of the appropriate U.S. Income Tax Return and W-2 for the most recent tax year to the Financial Aid office.

If eligible for a student loan, a sample loan repayment schedule and the necessity for repaying the loan is included in the handouts you will receive from the Financial Aid office.

ELIGIBILITY

Enrollment as a regular student, U.S. citizen or eligible non-citizen and make satisfactory academic progress.

The student must sign a statement that one is not in default on any Federal, Title IV, Higher Education Assistance (HEA) Loan, that the student does not owe a Title IV overpayment at any institution, and that the student is not involved in unlawful drug manufacture, distribution, dispensing, possession or use.

The student must sign a statement of registration compliance indicating that a) the student has registered with the Selective Service; or b) that the student are not required to register.
AID RECIPIENT SELECTION

Awards are determined and granted based upon financial need. Need is determined by evaluating the information on the aid application. Students with greater need are given priority when awards are determined. The handicapped student must let Financial Aid know because your expense may be greater with the costs associated with the handicap.

HOW WILL MY AID BE PROCESSED?

During your financial aid interview, the Financial Aid Department will explain how and when his or her financial aid will be processed. The student will be told the types and amounts of aid that were awarded. The institution participates in electronic funds transfer for Direct Loans. When funds are credited to your account, the student will be notified in writing with a statement of date, amount and source of funds.

MAINTAIN ELIGIBILITY

Students must meet satisfactory academic progress standards printed in this catalog. The student must be enrolled when the Federal Funds are processed. The student cannot continue working on Federal Work-Study (FWS) if the student is not enrolled in school or on Leave of Absence.

If the student is allowed to re-enter the school on a probationary basis after failing to meet the satisfactory academic progress standards, the student must meet the terms and conditions of your probation in order to be eligible for further financial aid assistance.

Failure to remain in good financial standing during the first six weeks of school will result in withdrawal from the institution. After the probationary period ends, students must remain in good financial standing. If future financial obligations with the institution are not satisfied, the student will not be allowed to register or receive text books for subsequent quarters which may impact the students anticipated graduation date and the student will fall behind. Continued failure to satisfy financial obligations will result in the student being withdrawn. Should the student choose to reapply at a future date, all admissions requirements (registration fee, entrance examination, etc.) must be satisfied again.

TRANSFER STUDENTS

If a student transfers from one school to another, your financial aid does not automatically transfer. To receive aid at Delta Tech, check with the Financial Aid Officer to find out what steps must be taken. The student cannot duplicate federal aid at two different institutions in (1) one financial aid award year. If the student received aid from another school, our financial aid office will verify all financial aid paid to determine remaining eligibility.

VERIFICATION

Effective 2001 – 2002, (July 1, 2001), Delta Tech will verify those students selected by Central Processing System CPS. If selected for verification, the student will be required to provide certain documents to the Financial Aid Office. If CPS does not select the
student and any conflicting information exists in the student's file, Delta Tech will require the student to bring in documentation to clear up any discrepancies. If the student is considered for special circumstances, Delta Tech will automatically select the student for verification, even if CPS has not.

**DETERMINING AID EARNED**

Title IV funds earned are determined by dividing the calendar days completed in the payment period or period of enrollment by the total calendar days in the payment period or period of enrollment (excluding scheduled breaks of five days or more and days that the student was on approved leaves of absence). Through 60%, the percentage of Title IV aid earned is equal to percentage of payment period or period of enrollment completed. After 60%, the student has earned 100% of Title IV aid for the payment period or period of enrollment.

**RETURN OF TITLE IV FUNDS**

If a student begins attending and withdraws from the institution during a payment period or period of enrollment, federal regulations require an institution to determine the amount of the Title IV funds that were earned as of the student’s withdrawal date. Title IV funds that were disbursed in excess of the earned amount must be returned.

**DETERMINING WITHDRAWAL DATE**

If the student fails to attend the institution prior to the end of the payment period or period of enrollment, a student's withdrawal date is:

- For students who provide notification to the institution of his or her intent to withdraw, the withdrawal date is the date that notification is received by the institution in writing or orally.

- For students who do not provide notification to the institution of his or her intent to withdraw, the withdrawal date is the date that the institution becomes aware that the student has failed to attend. The institution will determine the withdrawal date as follows:
  1. The last date of recorded attendance.
  2. Any earlier or later date that the institution documents as the last date of academically related activity by the student.
  3. Another date, as determined by the institution, related to an accident, illness, grievous personal loss, or other circumstances beyond the student’s control that prevented the student from withdrawing officially.

- For a student who does not return from an approved leave of absence, the withdrawal date is the earlier of the date of the end of the leave of absence or the date the student provides official notification to the institution that he or she will not be returning to the institution.
RETURN OF UNEARNED TITLE IV FUNDS

If the total amount of Title IV funds earned is less than the amount that was disbursed to the student, the difference between the two amounts will be returned to the Title IV program from which the student received aid during the payment period or period of enrollment, in the following order:

1. Unsubsidized Federal Stafford Loan  
2. Subsidized Federal Stafford Loan  
3. Unsubsidized Federal Direct Loan  
4. Subsidized Federal Direct Loan  
5. Federal Perkins Loan  
6. Federal PLUS Loan  
7. Federal Direct PLUS Loan  
8. Federal PELL Grant  
9. Academic Competitiveness Grant  
10. National Smart Grant  
11. Federal FSEOG  
12. Other Title IV grant or loan assistance

UNEARNED TITLE IV FUNDS RETURNED BY INSTITUTION

If a student has received excess funds, the institution must return a portion of the excess equal to the lesser of:

- The student's institutional charges for the payment period or period of enrollment, multiplied by the unearned percentage of funds, or
- The entire amount of the excess funds.

The institution's portion of unearned Title IV aid returned will be charged back to the student's account.

UNEARNED TITLE IV FUNDS RETURNED BY STUDENT

In the event that there is additional unearned aid, the student is responsible for returning those funds. Loans can be repaid in accordance with the terms of the promissory note. Title IV grant overpayments require that students repay only 50% of the initial amount of overpayment.

POST-WITHDRAWAL DISBURSEMENTS

If the total amount of the Title IV funds earned is more than the amount that was disbursed to the student, the difference between the two amounts will be treated as a post-withdrawal disbursement. The student's account may be credited up to the amount of allowable charges. Any amount not credited to the student's account will be offered to the student within 30 days of the date that the institution determined that the student withdrew. If the student declines the disbursement or does not reply within the permitted timeframe, the institution will return any earned funds it is holding to the Title IV program.
If the student responds after 14 days of the date that the notification was sent, the institution will inform the student in writing if it decides not to make the post-withdrawal disbursement.

**REFUNDS / CANCELLATIONS**

Per academic year, during the first week of classes the institution shall refund at least 90% of tuition; thereafter, during the next three weeks of classes, the institution shall refund at least 80% of tuition. Thereafter, during the first 25% of the period of financial obligation, the institution shall refund at least 55% of tuition; thereafter, during the second 25% of the period of financial obligation, the institution shall refund at least 30% of tuition. In cases of withdrawal after this, the institution may commit the student to the entire obligation.

Cancellation within three business days: If for any reason a student is unable to begin classes, all monies paid will be refunded if requested within three business days after signing an enrollment agreement and making an initial payment.

Cancellation after three-business days: Tuition or fees are collected in advance of entrance and if the student does not begin classes, the institution shall retain not more than $150. Refunds for a student who does not begin classes shall be made within 30 days of the start of a quarter, term, or semester.

**VOCATIONAL REHABILITATION ASSISTANCE**

Financial aid may be obtained for handicapped students through the local Vocational Rehabilitation offices.

**EXAMINATION OF STUDENT RECORDS**

See section on Statement of Compliance with 1974 Rights and Privacy Act.

**STATEMENT OF COMPLIANCE WITH 1974 RIGHTS AND PRIVACY ACT**

1. GENERAL POLICY

Under the authority of the Family Educational Rights and Privacy Act of 1974, a student has the right to examine certain files, records, or documents maintained by the school,
which pertain to him/her. The school must permit a student to examine such records within 45 days after submission of a written request and to obtain copies of such records upon payment of the cost of reproduction.

A student may request that the school amend his education records on the grounds that they are inaccurate, misleading, or in violation of his right of privacy act. In the event that the school refuses to so amend the records, a student may request a hearing.

2. EDUCATIONAL RECORDS

Educational records are all files, records, or documents maintained by the school that contain information directly related to the student. Each student has two separate files, an Education and Financial Aid file. The records are maintained by each individual department (Education and Financial Aid). When the student completes or withdraws, the two (2) files are combined and stored in the campus vault. The only persons allowed access to such records are those who have a legitimate administrative or educational interest.

3. EXEMPTIONS

The following items are exempt for the Act:

B. Confidential letters of recommendation received by the school prior to January 1, 1975. As to such letters received after 1974, the Act permits a student to waive his right of access if the letters are related to admission, employment, or honors.

4. REVIEW OF RECORDS

It is the policy of the school to monitor educational records to ensure that they do not contain information that is inaccurate, misleading, or otherwise inappropriate. The school may destroy records that are no longer useful or pertinent to the student's circumstances.

5. ACCESS WITHOUT STUDENT CONSENT

The school may release student information without written consent of the student to:

A. Other school officials who have legitimate interests.
B. Other schools where students have applied for admission. In this case, students must be advised that the records are being sent so that they may receive a copy and have an opportunity to review and challenge the records.
C. Authorized representative of the Department of Education and the Comptroller General of the United States.
D. State and local authorities, where required.
E. Accrediting agencies.
F. Parents of a student who is their dependent as defined in the Internal Revenue Code of 1954. However, the school is not required to release such records.
G. To comply with a court order or subpoena, provided that the student is notified prior to compliance.
H. In the event of a health or safety emergency, where such release without consent is necessary under the circumstances.

**ADDITIONAL COMPLIANCES**

No qualified handicapped person shall (on the basis of handicap) be excluded from participation in, be denied the benefits of, or otherwise be subjected to, discrimination under any school related program or activity.

Delta Tech admits students of any sex, race, color, national and ethnic origin to all the rights, privileges, programs, and activities generally accorded or made available to students at the school.

It does not discriminate on the basis of sex, race, color, national and ethnic origin, the administration of its educational policies, admission policies, grant and loan programs, and any school administered programs. Inquiries concerning the application of these laws and regulations to the school may be directed to:

Washington D.C.  20026-4805
PROGRAMS OF STUDY

ASSOCIATE IN OCCUPATIONAL STUDIES DEGREE PROGRAMS

An Associate in Occupational Studies Degree is awarded for successful completion of a course of study, including subject concentration in a major area of an occupational field and additional general studies. The prescribed courses of instruction include subjects designed to prepare the student for a career and for the student’s function in society. A degree program is at least 96 credit hours of academic instruction in length and includes introductory and advanced courses predicated on completion of specific foundation courses. Associate in occupational studies degree programs require at least 16.8 credits of General Education courses.

Currently, Delta School of Business and Technology offers an Associate in Occupational Studies Degree with emphasis in Accounting, Administrative Assistant, Business Management, Information Technology, Legal Assistant, and Medical Assistant.

DIPLOMA PROGRAMS

A diploma is awarded for successful completion of the following programs: Bookkeeping, Dental Assistant, Information Technology, Legal Assistant and Medical Office Assistant.

CERTIFICATE PROGRAMS

A certificate is awarded for successful completion of the following program: Computer Hardware Technician, Network Plus Technician, Network Security Technician, Operating Systems Administration and Phlebotomy Technician.

Program revision and modification disclaimer: In an effort to maintain up-to-date curriculum and coursework, the institution will revise program content on an ongoing basis. These changes include but are not limited to: entire programs or courses and content within a course. These improvements ultimately serve the student, ensuring our programs are current and in line with the needs of the professional community.
ASSOCIATE IN OCCUPATIONAL STUDIES DEGREE PROGRAMS

ACCOUNTING

The general objective of the Accounting Associate in Occupational Studies degree program is to train graduates who will be qualified for accounting positions in a variety of professional settings, which include payroll, accounts receivable, and accounts payable.

COURSE DESCRIPTIONS

ACCOUNTING DEPARTMENT

ACD 101 – INTRODUCTION TO ACCOUNTING (4.8 Credits) This course offers an introduction to financial accounting. Prerequisite: None, ISBN: 9781884826313, $262.50 ISBN: 9781884826504, $28.50

ACD 109 - BUSINESS MATH I (2.4 Credits) This course is designed to refresh and enhance the basic skills of adding, subtracting, multiplying, and dividing whole numbers and fractions. Prerequisite: None, ISBN: 9781133734147, $212.63

ACD 110 - BUSINESS MATH II (2.4 Credits) This course is a continuation of Business Math I and will include the study of the properties of whole numbers, addition, subtraction, multiplication, and division of whole numbers using real-world application problems. Prerequisite: ACD 109. ISBN: 9781133734147, $212.63

ACD 111 - BUSINESS MATH III (2.4 Credits) This course is a continuation of Business Math II and will include the study of percents, statistics, graphs and real numbers using real-world application problems. Prerequisite: ACD 110. ISBN: 9781133734147, $212.63

ACD 120 – INTRODUCTION TO FINANCIAL STATEMENTS (4.8 Credits) This course is designed to introduce students to the common financial statements used in an accounting office. Co/Pre-requisite: ACD 101. ISBN: 9781601630230, $18.65

ACD 200 - PAYROLL (4.2 Credits) This course is designed to familiarize students with the basic payroll functions and procedures of a company. Students will be directed through the payroll procedures of a small corporation for a month. Students will learn the essential concepts of payroll, payroll records and reports, and payroll laws. Prerequisite: None, ISBN: 9781285437064, $284.42

ACD 201 – COMPUTERIZED PAYROLL (2.4 Credits) [48 lab hours] This course consists of entering company payroll files onto the computer using a popular payroll program, maintaining employee earnings records, and printing payroll reports and W-2s. Prerequisite: ACD 200, ISBN: 9781285437064, $284.42

ACD 214 - INCOME TAX I (4.8 Credits) This course is designed to help students understand tax laws and improve the reporting quality of tax returns. Prerequisite: None, ISBN: 9781111972516, $240.69

ACD 300 – FUNDAMENTALS OF PEACHTREE (2.4 Credits) This course allows the application of fundamental principles in a computerized environment utilizing Sage 50 (Peachtree) software. Prerequisite: ACD 101. $65.32

ACD 314 - INCOME TAX II (4.8 Credits) This course examines the taxation of income earned by corporations and partnerships, as well as sole proprietorships. This course will compare and contrast the tax challenges facing the different forms of business organizations. Prerequisite: ACD 214. ISBN: 9781111972516, $240.69
ACD 414 – FUNDAMENTALS OF QUICKBOOKS (2.4 Credits) Students in this course will learn the principal functions of QuickBooks including accounts payable, accounts receivable, bank reconciliation, payroll and basic accounting reports. Emphasis will also be placed on source documents and maintaining accounting files. Prerequisite: ACD 101. ISBN: 9781573381161, $130.72

CAREER EDUCATION DEPARTMENT

CED 110 - CRITICAL THINKING (2.4 Credits) This course is designed to aid students in the transition to college academia. This course will strengthen general study skills, cultivate personal motivation, teach prioritizing skills, assist in discovering learning styles as well as empower your understanding. Prerequisite: None, ISBN: 9780132789356, $62.78

CED 303 – JOB READINESS - RESUMES (2.4 Credits) A course designed to help students develop good job search skills, inclusive of learning job search techniques and résumé preparation. This course is taken during the student’s last quarter of coursework. Prerequisite: None, ISBN: 9781285094243, $85.77 and 9780940712591, $5.20

CED 304 – JOB READINESS – INTERVIEWS (2.4 Credits) A course designed to help students learn how to get an interview, the best answers for interview questions. This course is taken during the student’s last quarter of coursework. Prerequisite: None, ISBN: 9781285094243, $85.77 and 9780940712591, $5.20

CED 600 – INTERNSHIP (6.0 Credits) This course is designed to allow students to gain business experience while still in school. The student works at an area business in their field of study for 180 hours and will receive school credit for his or her service. Students will take this course during his or her last quarter unless granted permission to do otherwise by the Dean of Academics.

COMPUTER TECHNOLOGY DEPARTMENT

CPT 101 – INTRODUCTION TO COMPUTERS (2.1 Credits) This course is designed to provide an introduction to computers and information processing. Students will learn what a computer is, how it functions, the parts of a computer, and the differences that exist between hardware, software, operating systems and application programs. Upon completion of this course, students will be proficient with the mouse, keyboard, Windows manipulation, basic operations and opening and saving files. Prerequisite: None.

CPT 201 – WORD I (2.1 Credits) This course introduces the features of Microsoft Word 2013 with emphasis on hands-on training. Topics will include Understanding Word, Basic Editing, Character Formatting, Paragraph Formatting, and Managing Text Flow. Prerequisite: CPT 101. ISBN: 9781118741214, $130.80

CPT 202 – WORD II (2.1 Credits) This course continues the study of Microsoft Word 2013 required to pass the Microsoft Office Specialist core exam. Prerequisite: CPT 201. ISBN: 9781118741214, $130.80

CPT 301 – EXCEL I (2.1 Credits) This course introduces the student to the use of electronic spreadsheets using Microsoft Excel 2013. The course will include Overview, Working with Microsoft Excel 2013, Using Office Backstage, Using Basic Formulas, and Using Functions. Prerequisite: CPT 101. ISBN: 9781118741245, $130.80
CPT 302 – EXCEL II (2.1 Credits) Advanced features of Excel 2013 are covered with an intense emphasis on mastering skill sets necessary to pass the Microsoft Office Specialist core exam. Prerequisite: CPT 301. ISBN: 9781118741245, $130.80

CPT 401 – ACCESS (4.2 Credits) This course studies database design and management utilizing Microsoft Access 2007. Course includes designing a database; access, searching, and updating files; and designing and producing printed reports. Advanced topics covered include creating sub forms, building relational databases, maintaining data integrity, and utilizing web capabilities. All skill sets covered on the Microsoft Office Specialist core exam will be presented. Prerequisite: CPT 101. ISBN: 9781118741276, $130.80

CPT 402 – POWERPOINT (4.2 Credits) The content covers all skill sets covered on the Microsoft Office Specialist core exam for PowerPoint 2007. The student will learn about presentation graphics for business and design techniques for visual presentations. Prerequisite: CPT 101. ISBN: 9781118741269, $130.80

CPT 403 – OUTLOOK (2.1 Credits) This course focuses on working with Microsoft Outlook 2007. Students learn to work with the e-mail and faxing services, as well as managing contacts. This course prepares the student for the Microsoft Office Specialist core exam for Outlook 2007. Prerequisite: CPT 101. ISBN: 9781118741238, $130.80

CPT 404 - DESKTOP PUBLISHING (2.1 Credits) This course is designed to present an overview of desktop publishing and to train students in a major desktop publishing program. Students will learn the page layout skills needed to produce newsletters, brochures, flyers, and reports on the computer. Prerequisite: CPT 101. ISBN: 9780763831189, $139.43

CPT 405 – ADVANCED WORD (2.1 Credits) This course focuses on mastering the most advanced features of Microsoft Word 2007 required to pass the Microsoft Office Specialist Expert certification exam, utilizing hands-on training. Prerequisite: CPT 202. ISBN: 9781118741214, $130.80

CPT 406 – ADVANCED EXCEL (2.1 Credits) This course prepares the student for the Microsoft Office Specialist Expert certification exam using Excel 2007. The most advanced features will be covered, including auditing worksheets, extracting data, data validation, creating macros, and editing macros. Prerequisite: CPT 302. ISBN: 9781118741245, $130.80

CPT 413 – OUTLOOK ADMINISTRATION (2.1 Credits) This course will provide the student with the knowledge to technically maintain Outlook user accounts and administration. The student will attain the knowledge to manage users and their accounts, connectivity, POP3, IMAP4, STMP, manage system performance and battle inbox overloads. Prerequisite: None, ISBN: 9780470846456, $35.99

DENTAL DEPARTMENT

DEN 100 – DENTAL CHARTING AND TERMINOLOGY (2.4 Credits) The class is designed to familiarize the student with dental terminology and dental office settings. Students will become familiar with the roles of dentists, registered dental hygienists, and dental assistants. Information is also given in the major areas of the dental office, instruments and equipment. Students will learn tooth origin, morphology, how to identify primary and permanent teeth, parts of teeth and surrounding tissue. Upon completion of this course, the student will be able to identify landmarks of the face and oral cavities. The student will be able to recognize oral health and pathology
issues as well as have the ability to chart and distinguish the different cavity classifications. Prerequisite: None, ISBN: 9781437727340, $145.49, ISBN: 9780323049634, ISBN: 9780766806252, $119.19

DEN 101 - BIOMEDICAL SCIENCES (2.4 Credits) Upon completion of this course, the student will be familiar with anatomy, physiology, microbiology, prevention and nutrition. Students will learn to identify head and neck muscles and bones. The student will become familiar with etiology of disease and microbiology. Nutrition and diet as it relates to dentistry will be discussed. It prepares dental assistant students to apply fundamentals of general and dental anatomy to informed decision-making, and to professional communication with colleagues and patients. Prerequisite: None ISBN: 9781437727340, $145.49, ISBN: 9780323049634, ISBN: 9780766806252, $119.19

DEN 102 - DENTAL SCIENCE (2.4 Credits) Upon completion of this course, the student will understand oral histology, oral embryology, oral pathology and pharmacology. Students will learn to identify the stages of development as it relates to the oral cavity. The student will become familiar with pathology, oral diseases and disorders. An introduction to pharmacology and its implications to dentistry will also be explored. Prerequisite: None, ISBN: 9781437727340, $145.49, ISBN: 9780323049634, ISBN: 9780766806252, $119.19

DEN 103 - RADIATION HEALTH SAFETY (2.4 Credits) Upon completion of this course, the student will be able to apply the basic principles of radiation safety. The student will learn the techniques and safety precautions necessary for exposing, processing, and mounting dental x-rays. The student will be able to define the legal and ethical implications, health hazards and infection control methods. Upon successful completion of the course, students will gain the radiology certificate for the state of Louisiana. Prerequisite: DEN 100 & 101. Book number: DR1025-W, $37.50, ISBN: 9781437723854, $50.36

DEN 104A - DENTAL ASSISTING LAB IA (1.2 Credits) Development of dental assisting skills, techniques and concepts in a laboratory or clinical setting. This course will assist in the improvement of manual dexterity and hand-eye coordination. Student will apply concepts identified in Dental Theory and Terminology, Radiation Health Safety, Biomedical Sciences and Dental Science. Prerequisite: None, ISBN: 9781437727340, $145.49, ISBN: 9780323049634, ISBN: 9780766806252, $119.19

DEN 104B - DENTAL ASSISTING LAB IB (1.2 Credits) Development of dental assisting skills, techniques and concepts in a laboratory or clinical setting. This course will assist in the improvement of manual dexterity and hand-eye coordination. Student will apply concepts identified in Dental Theory and Terminology, Radiation Health Safety, Biomedical Sciences and Dental Science. ISBN: 9781437727340, $145.49, ISBN: 9780323049634, ISBN: 9780766806252, $119.19

DEN 201 - INTRODUCTION TO THE DENTAL OFFICE, DENTAL LAW AND ETHICS (4.8 Credits) Upon completion of this course, the student will be able to list and define the allowable duties of different team members as mandated by the state board. Student becomes acquainted with legal concepts of standard of care, criminal and civil acts, contract, negligence, and ethical concepts. The student will be able to describe the penalties for violating the dental practice act and know the mechanism to report violations. This course will also introduce the student to the dental office, including both front and back office duties. The student will be able to complete front and back office duties. The student will be able to schedule an appointment and assist in
DEN 202 - INFECTION CONTROL (4.8 Credits) Upon completion of this course, the students will learn to identify major hand instruments, burs and hand pieces, as well as learn instrumentation for different dental procedures. Infection control and sterilization techniques will be discussed. OSHA standards, hazardous materials, environmental hazards and emergency management will be discussed in detail. This course will include lectures on CPR, emergencies in a dental office and information on how to take vital signs. Prerequisite: DEN 100, 101, 102 & 103. ISBN: 9781437727340, $145.49, ISBN: 9780323049634, ISBN: 9780766806252, $119.19

DEN 301 - COMPREHENSIVE DENTAL ASSISTING (4.8 Credits) Upon completion of this course, the student will know the fundamentals of dental assisting. This course focuses on more clinical, rather than didactic applications. The students will learn data gathering, treatment planning and four-handed instrument transfer techniques. Proper care of a medically compromised patient is also studied. The student will be familiar with general dentistry, job duties and everyday tasks. Students will understand specialty procedures as they relate to general dentistry. Prerequisite: DEN 100, 101, 102, 103, 201 & 202. ISBN: 9781437727340, $145.49, ISBN: 9780323049634, ISBN: 9780766806252, $119.19

DEN 302 - DENTAL MATERIALS (4.8 Credits) The student will have an understanding of cements, bases, and liners, acid etch materials bonding systems and restorative materials. The student will be able to list the different impression materials and their uses. Proper manipulation of materials, their uses and proper storage will be practiced. Various lab procedures will be studied and practiced so the student will understand the importance of each step in a procedure. The student will be instructed in and expected to demonstrate the safe operation of laboratory equipment. Temporary materials will be discussed in detail. Upon completion of this course, they will be able to place a temporary filling or temporary crown/bridge, take and pour up impressions and will be familiar with basic materials. Prerequisite: DEN 100, 101, 102, 103, 201 & 202. ISBN: 9781437727340, $145.49, ISBN: 9780323049634, ISBN: 9780766806252, $119.19

DEN 304 - DENTAL ASSISTING LAB III (2.4 Credits) This course will include development of dental assisting skills, techniques, and concepts in a laboratory or clinical setting. This course will assist in the improvement of manual dexterity and hand-eye coordination. Emphasis will be placed on four-handed dentistry, manipulating dental materials including cements, liners, bases. Students will be taking alginate impressions pouring and trimming models as well as constructing vacuum-formed trays. Prerequisite: DEN 204. ISBN: 9781437727340, $145.49, ISBN: 9780323049634, ISBN: 9780766806252, $119.19
DEN 404 – DENTAL ASSISTING LAB IV (2.4 Credits) This course will include development of dental assisting skills, techniques, and concepts in a laboratory or clinical setting. Emphasis will be placed on the improvement of manual dexterity and hand-eye coordination by allowing the student to perform specific skills encountered in a dental office. Scenarios and case studies will be used to better prepare the student for daily routine of a dental assistant. Students will apply concepts identified in previous lab courses including radiographs and charting. Prerequisite: DEN 304. ISBN: 9781437727340, $145.49, ISBN: 9780323049634, ISBN: 9780766806252, $119.19

LANGUAGE ARTS DEPARTMENT

ENG 204 - BUSINESS ENGLISH I (2.4 Credits) This course is designed to enable students to use the basic rules of English in their writing and in their speech. It will also assist students in reviewing the basic principles of English grammar, learning the fundamentals of the English language, reviewing the basics of modern English usage, and expressing themselves effectively in oral or written communication. Prerequisite: None, ISBN: 9780538728829, $88.82

ENG 205 - BUSINESS ENGLISH II (2.4 Credits) This course is a continuation of Business English I, with a focus on verb usage, vocabulary, and oral communication. Prerequisite: ENG 204. ISBN: 9780538728829, $88.82

ENG 304 - BUSINESS COMMUNICATIONS (4.8 Credits) This course is designed to prepare students to communicate and write properly with special emphasis on punctuating correctly, organizing information, proofreading, and composing different types of correspondence commonly used in business. Prerequisites: ENG 205. ISBN: 9781285094243, $78.69

GENERAL EDUCATION

GED 201 - CREATIVE WRITING I (2.4 Credits) This course is designed to further develop basic reading and writing skills of students. Students will prepare lively and thought-provoking essays. The student will work through activity sets to help them read, understand and write about essay topics. Prerequisite: None, ISBN: 9780618642861, $83.32

GED 202 - CREATIVE WRITING II (2.4 Credits) This course is a continuation of Creative Writing I. The students will develop reading and writing skills by preparing essays. The student will become a better reader and writer. Prerequisite: GED 201. ISBN: 9780618642861, $83.32

GED 304 – PSYCHOLOGY I (2.4 Credits) This course is an introduction to basic psychology, which is the study of behavior and its applications in human development. Psychology I focuses on psychology and science, consciousness, sleep, hypnosis, drugs, and memory. Prerequisite: None. ISBN: 9781133960805, $78.69

GED 305 – PSYCHOLOGY II (2.4 Credits) This course is an introduction to basic psychology, which is the study of behavior and its applications in human development. Psychology II focuses on personality theories and measurement, stress, health and coping, and psychological disorders. Prerequisite: None. ISBN: 9781133960805, $78.69

GED 310 – SOCIAL DYNAMICS (2.4 Credits) This course is an overview of specific areas of sociology and the study of human social interaction. Sociology I examines culture, socialization, social structure and deviance. Prerequisite: None. ISBN: 9781133592129, $78.69
GED 311 – SOCIAL INSTITUTIONS (2.4 Credits) This course is an overview of specific areas of sociology and the study of human social interaction. Sociology II looks at social stratification, global inequality, racial and ethnic inequality, sex and gender, and age inequality. Prerequisite: None. ISBN: 9781133592129, $78.69

GED 400 – EFFECTIVE SPEAKING I (2.4 Credits) This course is designed to teach the student the fundamentals of responsible and effective oral communication with a focus on planning, composing, and delivering informative speeches. Students will learn how to analyze an audience, select an appropriate topic, establish their credibility as a speaker, research and organize relevant material, and introduce/conclude a speech appropriately. Students will also learn and apply tips and tricks for controlling nervousness. Prerequisite: None, ISBN: 9781111830298, $64.07

GED 402 – EFFECTIVE SPEAKING II (2.4 Credits) This course is designed to teach the student the fundamentals of responsible and effective oral communication with a focus on planning, composing, and delivering persuasive speeches. Students will be introduced to the various ways of organizing persuasive presentations and which method is appropriate in a given circumstance. Students will learn the various fallacies that undercut persuasive presentation and how to avoid them. Additionally, students will learn the ethical obligations that are relevant when attempting to persuade others. Prerequisite: GED 400. ISBN: 9781111830298, $64.07

GED 501 – INTERPERSONAL COMMUNICATIONS I (2.4 Credits) This course provides a solid academic introduction to the field of interpersonal communication and contains information about how to communicate more effectively on the job and in everyday life. Prerequisite: None. ISBN: 9780495914549, $61.82

GED 502 – INTERPERSONAL COMMUNICATIONS II (2.4 Credits) In this course, students develop in-depth insight into factors contributing to interpersonal communication knowledge and skills that enable students to communicate more effectively on the job and in everyday life. Topics include language barriers and bridges, nonverbal communication, listening, communication and relational dynamics, and managing interpersonal conflicts. Prerequisite: None. ISBN: 9780495914549, $61.82

GED 510 – MACROECONOMICS (2.4 Credits) In this course the student will be introduced to the basics of economics dealing with topics such as government spending, employment, money supply, banking, etc. The student will also learn how the U.S. evolved from an agricultural economy into the world’s economic superpower. Prerequisite: None, ISBN: 9781285087306, $78.69

GED 512 – MICROECONOMICS (2.4 Credits) This course is designed to introduce the student to the basic concepts of Microeconomics and how these concepts affect the individual units of the economy such as firms, households, individual markets, etc. The student will learn the history of the evolution of the American economy from an agricultural basis to becoming the world’s economic superpower. Students will be exposed to topics such as supply and demand, price elasticity, and the theory of consumer behavior. Prerequisite: None, ISBN: 9781285087306, $78.69

INFORMATION TECHNOLOGY DEPARTMENT

ITD 101 – COMPUTER HARDWARE AND MAINTENANCE I (2.0 Credits) This course will provide students with the knowledge required to understand the fundamentals of computer
technology, networking, and security, and attain the skills required to identify and troubleshoot hardware, peripheral, networking, and security components; all which are required to successfully pass the CompTIA A+ Certification Exam. Prerequisite: None, ISBN: 9780071795807, $38.99

**ITD 102 – COMPUTER HARDWARE AND MAINTENANCE II** (2.0 Credits) This course will be a continuation of Computer Hardware and Maintenance I. Prerequisite: ITD 101, ISBN: 9780071795807, $38.99

**ITD 103 – COMPUTER HARDWARE AND MAINTENANCE III** (2.0 Credits) This course will be a continuation of Computer Hardware and Maintenance II. Prerequisite: ITD 102, ISBN: 9780071795807, $38.99

**ITD 215 – OPERATING SYSTEMS I** (2.0 Credits) This course will introduce students to basic knowledge of operating systems for installing, upgrading, troubleshooting, and repairing computer systems. Students will also become familiar with function, structure, operation and file. Students will study memory management, diagnosing and troubleshooting, and networking for operating systems. This course includes hands-on instruction. Prerequisite: None, ISBN: 9780480891223, $177.00

**ITD 225 – OPERATING SYSTEMS II** (2.0 Credits) This course will be a continuation of Operating Systems I. Prerequisite: ITD-215. ISBN: 9780480891223, $177.00

**ITD 235 – OPERATING SYSTEMS III** (2.0 Credits) This course will be a continuation of Operating Systems II. Prerequisite: ITD-225. ISBN: 9780480891223, $177.00

**ITD 310 – SERVER I** (2.1 Credits) The student will be introduced to a network operating system. Topics will include installation and configuration of the network operating system. Course will also cover creating and administering user and group accounts, planning and managing resource sharing, file system, security, and network architecture. Prerequisite: None, ISBN: 9780470875063, $229.50

**ITD 311 – SERVER II** (2.1 Credits) This course will provide students the opportunity to learn how to troubleshoot network connectivity, setup and administer printing environment, monitor resources to obtain information, and using tapes to back up and restore files and folders. Prerequisite: ITD 310. ISBN: 9780470875063, $229.50

**ITD 405 – NETPLUS I** (2.0 Credits) This course is designed to teach students the skills needed to design, build, and maintain small to medium-sized networks. Topics covered include media and design, structured cabling and management. The student will also gain a thorough understanding of the OSI model and the TCP/IP protocol suite. Prerequisite: None, ISBN: 9781111312527, $132.58, ISBN: 9781418835545, $188.94

**ITD 415 – NETPLUS II** (2.0 Credits) This course will be a continuation of Network Plus I. Prerequisite: ITD-405. ISBN: 9781111312527, $132.58, ISBN: 9781418835545, $188.94

**ITD 425 – NETPLUS III** (2.0 Credits) This course will be a continuation of Network Plus II. Upon completing this course, each student will have the opportunity to take the CompTIA Network + certification test. Prerequisite: ITD-415. ISBN: 9781111312527, $132.58, ISBN: 9781418835545, $188.94

**ITD 501 – ADS INFRASTRUCTURE I** (2.1 Credits) This course covers network protocol
administration. Topics include IP addressing, host name resolution, Dynamic Host Configuration Protocol, Windows Internet Name Service, Domain Name System. Upon completion of this course the student should be able to plan an Internetwork with multiple subnetworks, and implement IP routing and name resolution services. Prerequisite: ITD 311. ISBN: 9780470874974, $229.50

ITD 502 – ADS INFRASTRUCTURE II (2.1 Credits) The student will learn optimizing the system, and troubleshooting DHCP, NAT, WINS, and TCP/IP utilities. Prerequisite: ITD 501. ISBN: 9780470874974, $229.50

ITD 505 – INTRODUCTION TO PROGRAMMING (4.8 Credits) This course will introduce the student to basic web based programming. During this course, the student will be introduced to basic programming terminology, concepts, and best practices. The student will learn good programming habits, code architecture, and debugging techniques which can be easily applied to any compiled or interpreted language. Prerequisite: None, ISBN: 9780321784421, $53.99, ISBN: 9780735649705, $31.19

ITD 505L – INTRODUCTION TO PROGRAMMING LAB (2.4 Credits) This course will provide the student hands on approach to programming. Students will take the knowledge attained from Introductions to Programming class, and use that to correctly and efficiently write code. Students will use HTML and ASP.NET languages to be able to create web based pages and forms, as well as how to securely set up web forms and login in pages on the World Wide Web. Prerequisite: ITD 505. ISBN: 9780321784421, $53.99, ISBN: 9780735649705, $31.19

ITD 510 – NETWORK SECURITY I (2.0 Credits) This course will familiarize students with the basic principles of I.T. security in an enterprise environment. Students will gain the foundational knowledge required to identify risks and develop mitigation actions. This class will combine lecture with hands-on lab exercises covering network security, identity management, cryptography, and compliance standards. Prerequisite: None, ISBN: 9780789747136, $60.74

ITD 511– NETWORK SECURITY II (2.0 Credits) This course will be a continuation of Network Security I. Prerequisite: ITD 510. ISBN: 9780789748270, $89.99

ITD 512– NETWORK SECURITY III (2.0 Credits) This course will be a continuation of Network Security II. Upon completing this course each student will have the opportunity to take the CompTIA Security+ certification test. Prerequisite: ITD 511, ISBN: 9780789748270, $89.99

MEDICAL SCIENCE DEPARTMENT

MED 100 - MEDICAL SCIENCE IA (2.4 Credits) This course will Introduce the student to an equal balance of anatomical and physiological concepts of the human body by knowing levels of structural organization using the language of anatomy. Prerequisite: None, ISBN: 9780321695987, $180.23, ISBN: 9780321743053, $76.88, ISBN: 9781608316922, $52.79

MED 101 - MEDICAL SCIENCE IB (2.4 Credits) This course will introduce the normal structure and function of the body systems including the Integumentary, Skeletal, Muscular, Nervous, and Special Senses. Discussions of diseases and dysfunctions to enhance and reinforce the understanding of normal human structure and function. Prerequisite: MED 100. ISBN: 9780321695987, $180.23, ISBN: 9780321743053, $76.88, ISBN: 9781608316922, $52.79

MED 200 - MEDICAL SCIENCE IIA (2.4 Credits) This course will emphasize the important terminology and the normal structure and functions of the body systems. Topics include

**MED 201 - MEDICAL SCIENCE IIB** (2.4 Credits) This course will introduce the normal structure and functions of the Respiratory, Digestive, Urinary, and Reproduction systems. Discussions of diseases and dysfunctions to enhance and reinforce the understanding of normal human structure and function. Prerequisite: MED 200. ISBN: 9780321695987, $180.23, ISBN: 9780321743053, $76.88, ISBN: 9781608316922, $52.79

**MED 310 – CLINICALS I** (2.4 Credits) The student will learn the guidelines for filling out the patients health history form and charting patients chief complaint using proper abbreviations that is used in a medical office. The student will know OSHA standards for infection control and medical asepsis through proper hand wash, apply and remove gloves, and using alcohol hand sanitization. Know basic surgical instruments and how to prepare a minor surgery tray after properly sanitizing which leads to proper sterilization of instruments by use of the autoclave, set up the room for minor surgery, assist the physician during procedures, administer postoperative care to the patient and clean the room after the procedure is completed. ISBN: 9781437719994, $129.38

**MED 410 – CLINICALS II** (2.4 Credits) Students will prepare exam room for patient physical examination, interact professionally with patients, learn several methods of taking temperatures and pulses, along with the procedures for obtaining respirations rates, pulse oximetries, and blood pressures. Correctly measure height and weight, position and drape patients for comfort, and how to assist the physician during the exam. Also, they will know the steps for performing eye test for visual acuity, and know causes and types of hearing impairment including assisting with various hearing tests. ISBN: 9781437719994, $129.38

**MED 510 – CLINICALS III** (2.4 Credits) This is a continuation of Clinical II - emphasizing more specific basic procedure skills that a medical assistant can perform after receiving orders from the physician while working in his/her office. Performing the basic procedure skills such as: Electrocardiograms (ECG/EKG), Administration of medications given orally or parenteral routes (ID, SC, & IM), obtain blood samples for lab testing by learning Phlebotomy techniques. Prerequisite: MED 310 & 410, ISBN: 9781437719994, $129.38

**MED 610 – CLINICALS IV** (2.4 Credits) Students will obtain their CPR training and receive their card from American Heart Association and/or American Red Cross. They will learn some basic First Aid Skills they can use to help people when in emergency situations prior to receiving professional care. Upon completing these skills students will be competent in passing the National Certification Test for Medical Assisting. Prerequisite: MED 310 & 410, ISBN: 9781437719994, $129.38

**MANAGEMENT DEPARTMENT**

**MGT 101 - MANAGEMENT - A PRACTICAL INTRODUCTION** (4.8 Credits) This course is designed to teach the student the fundamentals of management principles and what is required to be a successful manager. Prerequisite: None, ISBN: 9780078029547, $216.75

**MGT 204 - SMALL BUSINESS MANAGEMENT** (4.8 Credits) This course provides an overview of the knowledge and skills necessary to own, operate, and manage a small business. It is designed to introduce the students to the complexities and challenges of business ownership.
MGT 301 – MARKETING MANAGEMENT (4.8 Credits) This course is designed to enhance the student’s knowledge of marketing management and to improve their skills in utilizing the knowledge gained in this course to develop and maintain successful marketing strategies. Prerequisite: None, ISBN: 9780078029097, $265.50

MGT 404 - SUPERVISION I (2.4 Credits) This course introduces and examines supervisory skills by focusing on daily managerial job processes including: planning, communicating, time management, organizing, and staffing. Prerequisite: None, ISBN: 9780078023170, $156.38

MGT 405 - SUPERVISION II (2.4 Credits) This course introduces and examines supervisory skills by focusing on daily managerial job processes involved in energizing the workforce, as well as employee appraisal and counseling. Prerequisite: MGT 404. ISBN: 9780078023170, $156.38

MGT 503 - PERSONAL FINANCE (4.8 Credits) This course is designed to teach students the fundamentals of financial planning so they can make informed choices related to spending, saving, borrowing, and investing. Financial planning tools are used in a step-by-step approach to help students identify and evaluate choices as well as understand the consequences of decisions in terms of opportunity costs. Prerequisite: None, ISBN: 9780073530697, $252.38

MGT 601 – HUMAN RESOURCE MANAGEMENT (4.8 Credits) This course introduces the student to the basic precepts of human resource management and allows students to apply these concepts in "real" organizational settings and situations. A primary goal is to show how managers must be a human resource problem solver and diagnostician. Prerequisite: None, ISBN: 9780133254112, $223.50

PHLEBOTOMY DEPARTMENT

PHT-100 INTRODUCTION TO PHLEBOTOMY (.35 Credits) This course is designed to teach students the Introduction and History of Phlebotomy, Roles and Responsibilities of the Phlebotomist, Safety and Infection Control and HIPAA, Ethics, and Law. ISBN: 9780073374550, included in cost.

PHT-101 BLOOD CIRCULATION, FUNCTION, AND COMPOSITION (.4 Credits) This course is designed to teach students the Introduction of Terminology, Circulation and the Vascular System, Blood Vessels, Blood and Blood Components, Homeostasis and Blood Coagulation, and ABO and Rh Blood Types. ISBN: 9780073374550, included in cost.

PHT-102 EQUIPMENT FOR SPECIMEN COLLECTION (.4 Credits) This course is designed to teach students the Introduction of Procedures - Hand wash and glove application, Laboratory Requisitions, and Specimen Collection Equipment. ISBN: 9780073374550, included in cost.

PHT-103 VENIPUNCTURE AND DERMAL PUNCTURE (.4 Credits) This course is designed to teach students about Preparing for Venipuncture, butterfly needle set and dermal puncture. ISBN: 9780073374550, included in cost.
PHT-104  SPECIMEN HANDLING AND PROCESSING (.2 Credits) This course is designed to teach students the Special specimen handling procedures, Point-of-care testing, and Centrifuge Operations. ISBN: 9780073374550, included in cost.

PHT-105  SPECIAL PHLEBOTOMY PROCEDURES (.1 Credits) This course is designed to teach students about Timed Specimens, Glucose testing, PTT Functions, Blood Alcohol, Toxicology, Therapeutic Drug Monitoring, and Alternative Collection Sites. ISBN: 9780073374550, included in cost.

PHT-106  PRACTICING PHLEBOTOMY (.3 Credits) This course is designed to teach students the Competencies for procedures performance and will contain a Certification Review. ISBN: 9780073374550, included in cost.

PHT-107  PHLEBOTOMY EXTERNSHIP (1.6 Credits) Student must demonstrate 100 venipunctures (drawing blood) and 35 capillary collections (finger pricks). ISBN: 9780073374550, included in cost.

LEGAL DEPARTMENT

PRL 100 – INTRODUCTION TO PARALEGAL STUDIES (4.8 Credits) This course is designed to provide a historical overview of the law, a description of various legal theories, and an introduction to the legal process. Students are taught the distinctions between common and civil law, criminal and civil law, and tort and contract law. This course also introduces students to basic skills such as understanding basic legal terminology and reading and analyzing a case. Prerequisite: None, ISBN: 9780135063927, $189.38

PRL 103 – CONTRACT LAW (4.8 Credits) This course is designed to teach the student the fundamentals of contract law. Prerequisite: None, ISBN: 9780131147485, $133.20

PRL 105 – LEGAL RESEARCH WRITING AND ANALYSIS I (3.0 Credits) This course is designed to introduce students to the fundamentals of legal research. Students will learn how to locate primary and secondary sources using both fee- and non-fee-based services. Students will also learn the fundamentals of legal procedure including basic jurisdiction to determine the types of authority to provide in response to a legal issue. This course will also teach students to utilize procedural rules to ensure compliance with federal, state, and local court requirements. Additionally, students will gain knowledge of proper citation form using The Bluebook: A Uniform Method of Citation. Prerequisite: None, ISBN: 9780735598652, $193.43, ISBN: 9780615361161, $39.88

PRL 201 – CRIMINAL LAW (4.8 Credits) This course is designed to teach the student the fundamentals of Criminal Law as well as the procedural aspects of the criminal justice system. Prerequisite: None, ISBN: 9781428317413, $221.71, ISBN: 9780769860374, $57.00

PRL 202 – FAMILY LAW (4.8 Credits) This course is designed to teach the student the fundamentals of American and Louisiana Family Law. Prerequisite: None, ISBN: 9780135109489, $160.88, ISBN: 978034600264, $404.40

PRL 203 – TORT LAW (4.8 Credits) This course is designed to introduce the paralegal student to intentional torts, the law of negligence and applicable defenses. Prerequisite: None, ISBN: 9781401879624, $174.10
PRL 300 – ALTERNATIVE DISPUTE RESOLUTION (4.8 Credits) This course is designed to address a practical approach to dispute resolution. This class will address processes and techniques for resolving disputes, and will help individuals select the most suitable method when planning dispute resolution strategies. This class introduces the participants involved, and considers the complexity of each process, advancing from the least to most technical. Prerequisite: None ISBN: 9780135064061, $136.35

PRL 305 – LEGAL RESEARCH WRITING AND ANALYSIS II (3.0 Credits) This course is a continuation of Legal Research, Writing and Analysis I. It is designed to instruct students in the understanding and preparation of formal legal prose and legal writing. Students will apply the research skills acquired in Legal Research, Writing and Analysis I to compose formal legal memoranda of law and other documents related to a law practice. This course will familiarize students with the language and format of legal documents through the use of sample forms and practical application of classroom discussion to the drafting of formal legal documents. Students will also apply The Bluebook and Shepard's Citations to cite-check prepared documents. Prerequisite: PRL 105. ISBN: 9780735598652, $193.43, ISBN: 9780615361161, $39.88

PRL 500 – LEGAL DOCUMENT PRODUCTION (3.0 Credits) This course is designed to provide students with an in-depth understanding of the role played by paralegals in the document production process. Students will participate in situations designed to mirror the real-life discovery process and receive hands-on experience designed to hone their ability to create and maintain discovery indexes; organize voluminous case files; calendar discovery deadlines; organize, review, and analyze document for production; prepare deposition summaries; organize, summarize, and analyze medical records and assist with e-discovery. Students are also introduced to the various rules and obligations that apply with respect to document production. Prerequisite: None, ISBN: 9780132373159, $105.75
